# WHY REMAIR HELICOPTER FAN ?

**Powerful as a helicopter, but so quiet that you won't notice it's working.**

#### **Fresh Air**

It provides a clean air flow where fresh air is circulated in large areas.

#### **Wide Air Conditioning**

Eliminates air-conditioning problems in large spaces.

#### **Air Pollution**

It helps to remove hot and polluted air and bad odors.

#### **High Savings**

Compared to existing cooling systems, it is much more economical in terms of cost, application and maintenance.
